

Designed for use with side-mounted connectorized blocks, the single-sided **50M-1800LH Frame** has plenty of space for cable delivery. (Shown with connectorized blocks factory installed.)

50M Series Single-Sided Floor Frames for Blocks with Side-Mount Connectors

If you prefer using 66-type blocks with side-mounted connectors, use Homaco 50M Series Single-Sided Frames for Side-Mount Blocks. These frames mount fewer blocks per module – 12 versus 18 on other 50M frames – to allow easier access to the connectors. Includes 12" cable runway support

Catalog No.	Block Capacity*	No. of Pairs	Dimensions	Ship Weight
50M Series Single-Sided Floor Frames for Side-Mount Blocks				
50M-1800LN	36	1,800	84.00"H x 35.50"W x 18.25"D	105 lbs
50M-1800XN	36	1,800	84.00"H x 35.50"W x 13.75"D	95 lbs

*Blocks are not included. L = patented 6" channels; X = 4" channels.

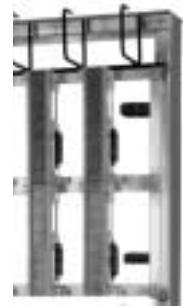

50M Series Single-Sided Floor Frames for Side-Mount Blocks with H89 Brackets

50M-1800LH	36	1,800	84.00"H x 35.50"W x 18.25"D	115 lbs

L = patented 6" channels; X = 4" channels.

Modules for Blocks with Side-Mount Connectors

When your Side-Mount Connector Single-Sided Frame installation requires add-ons beyond the capacity of a single-sided frame, convert the frame by adding additional modules. Modules are equipped with 12 pre-installed H89 brackets. Homaco offers connectorized blocks, to order blocks see page 37.

Catalog No.	Block Capacity*	No. of Pairs	Dimensions	Ship Weight
Add-on Module for 50M-1800X				
50M-600-SF	12	600	26.94"H x 35.25"W x 5.81"D	22 lbs

Add-on Module for 50M-1800L

50M-600L-SF	12	600	26.94"H x 35.25"W x 8.12"D	22 lbs
--------------------	----	-----	----------------------------	--------

*Blocks are not included. L = Added cabling and jumpering space. SF = Module designed to mount connectorized blocks.

Homaco Hint:

Don't forget to ground your frame... See page 68.

Homaco Hint:

Connectorized Blocks sold separately. See page 37.
