

Unequal Flange Rack

Homaco Unequal Flange Racks provide the equipment support structure necessary for a reliable network. The welded 11-gauge steel rack is designed to withstand the demands of central office applications, including voice, data, and video.

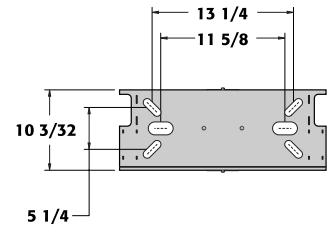

Mounting holes are drilled and tapped on both the front and rear flanges of the frame to accept a variety of equipment and accessories. Front guard box included.

Features:

- Meets all NEBS requirements
- Easy to anchor and to install equipment
- 1/2" junctioning holes secure multiple-rack line-ups
- 12-24 assembly mounting screws and cable tie holders included

23"W footprint

19"W footprint

Dove gray finish. *Rack mount spaces.

Solid Runway

Solid Runway junctions to auxiliary framing and assures appropriate cable support. Runway is available for various applications and is used in conjunction with hardware kits to accommodate a variety of configurations. Accessories provide additional cable capacity and allow smooth cable transitions.

Features:

- Channel cross slats are welded between stringers
- Cross slats feature rolled edges for cable protection
- Constructed of heavy-duty 3/8" steel bar
- Rust-resistant dove gray finish
- Meets NEBs standards
- UL listed
